

Sore on Penis

[My Foreskin Is Cracked And Dry](#)

Recently my 2 year old son has developed really dry and flaky skin around the head and foreskin of his penis. The dryness is so bad, it's now starting to cause him some pain.

Recurring foreskin cuts, dryness, cracks, etc. . I have had recurring cuts on my foreskin for about 1 year now. . Other times my penis is dry and cracking.

Foreskin dry and cracked. Hello! Great thanks for this forum. Excuse my bad english. I have 32 years. My Foreskin is mild narrowed. When the penis is an erection, Foreskin glides smoothly.

However, my foreskin is very dry and cracked now. I have been using e45 cream for a week .

Out of nowhere my foreskin starting to get really itchy, now the skin is scabbing & VERY DRY/ROUGH. My foreskin is so dry & when I peel the skin it bleeds & scabs.
